The President stated that he had been contacted by several members who had inquired whether children were included in the Museum event. He noted that he was concerned since the Museum would not be fully staffed. Mr. Donald suggested checking with the Museum to get their input. The President stated that further announcements would address the attendance of children.

Mr. Hedderick provided the Autocross report. He noted that Autocross #9 had included 28 LSR members which was similar to pre-Covid levels. He introduced Shane Dosser who will be succeeding him as Autocross Chair. Mr. Hedderick stated that he needed new timing equipment at a cost of about \$1300. He further noted that the old system had some value and could be sold online to help defray the costs. He moved that he be granted authority to acquire new timing equipment at the cost of about \$1300. Mr. Van Landingham seconded the motion and it was unanimously approved.

Mr. Van Landingham noted that he had received 2022 budgets from Autocross, DE and Social and still needed budgets for other activities.

There was no report from Concours. It was noted that the final Concours event of the year had been cancelled without communication to officers or other members of the Board. Concern was expressed as to whether cancellation of an event reflected negatively on the Club. The question was raised as to whether there was a policy or procedure to cancel events. Mr. Donald stated that the Chair had the final responsibility for the success of the event. He noted that he would expect Chairs to advise the President or the Vice President on a timely basis. The Board discussed the issue and the consensus was that better communication is a key factor.

Mr. Diulus provided the Car Control School report. He noted that 11 students had registered for the January event and four additional students were pending. He noted that he and Mr. Doyle were seeking instructors and six were already confirmed. He noted that he expected approximately 30 students at the event. He noted that another school was planned in March and that he expected to arrange for two more schools in the fall.

Bill Lyons provided the DE report. He stated that he would be the new Chief Driving Instructor. He noted that 138 had registered for the December DE at MSR and that twenty more could be accommodated. Ms. Goldman stated that this was her last meeting, as well, that she had enjoyed working with five Presidents, and that she would continue to write articles for the Lone Star magazine.

Mr. Donald stated that the Club was very appreciative of the Goldman's efforts and hoped that they continued to be active members of the Club.

Mr. Jacoby reviewed the activities of the Communications personnel. He noted that the Web Master responsibilities had been more difficult and time consuming than anticipated but that with the support of the administrators, the web and social network efforts were succeeding. He stated that he had a potential Webmaster candidate. He quickly reviewed the agenda for the retreat. He also noted that the PCA web store for the Lone Star region was no longer active but that he had contacted PCA and had received the information to revive it.

Mr. Baxter reminded the Board that he had collected 2022 schedule from all events (other than Tours). He stated that he would work with Communications to get it on the website calendar.

The President advised that there had been significant traffic on social media regarding a concern raised by a member regarding the driving activities at Boxstoberfest. The Board discussed the concern at length and was of the consensus that all PCA events must be run in accordance with PCA guidelines and that we must make every effort to ensure that happens in our events and in the events of other regions when we are somehow involved.

Mr. Baxter advised the Board that the Bylaws require that the Directors be elected with a majority vote of the Officers at the beginning of each term of the Elected Officers.
